REPORT

OF THE

Connecticut.

SECRETARY OF STATE,

RELATIVE TO CERTAIN

BRANCHES OF INDUSTRY.

May Session, 1839.

PRINTED BY ORDER OF THE SENATE.

Aug 31, 1970

HARTFORD:
PATRIOT OFFICE PRESS.
1839.

State of Connecticut.

Secretary's Office, April 1839.

To the Honorable Senate and
Honorable House of Representatives:

In obedience to the provisions of a Resolution of the General Assembly of this State, passed May Session, A. D. 1838, requiring me as Secretary of State, to make and submit to the General Assembly in 1839, an abstract of all the returns made by the Assessors in each town in this State, in pursuance of said Resolution, (hereto annexed,) requiring me also "to cause to be printed blank tables, conveniently arranged, for the return" of such facts as are required to be returned by the Assessors, and to furnish blanks to the several towns, on or before the first day of October, 1838; which blanks I caused to be printed and distributed to the several Towns as required by said Resolution: many Towns have complied with the requirement in said Resolution, though I regret to report that more than one half of the Towns in the State, have entirely neglected to make any return of facts. There are some imperfections in some of the returns made—many Assessors have taken pains not only to answer the questions upon the said blanks, but have gathered and presented other statistics of other branches of industry. The reason why many Towns have neglected to make returns, is, that the Legislature made no provision for compensating Assessors, for their labor and time in making such assessments and returns. It will be discovered

by the returns in some towns, that the raw materials when manufactured are of greater value, than the entire crops raised by agriculture in the Towns, and it is believed that could a full and accurate return be made from each Town in the State, that the wealth of Connecticut would far exceed that of much larger States in the Union, who deal less in manufacturing and more in agriculture than this State; and if wealth is power, would raise in importance our little State, equal at least to many of her larger sister States.

Such Towns as have complied with the Resolution, I have made an abstract of each return, arranged by Towns and Counties, which are hereto annexed, and respectfully submitted to the General Assembly.

R. R. HINMAN, *Secretary.*

RESOLVED

By the Senate and House of Representatives in General Assembly convened, as follows:

SEC. 1. The *Assessors* of each Town in the State, shall between the first day of November and the first day of February next, make a return to the *Secretary of State*, of the facts as they existed in each town, on the first day of September preceding, in relation to the number of kinds of Manufacturing and Mechanical Establishments, the quantity and value of the articles manufactured, the number of persons employed, and the amount of capital invested. Also, in relation to the value of real estate, the number and value of horses, and other kinds of cattle, the quantity and value of the different products of land, and the number of persons employed in agricultural pursuits, the number, tonnage, and value of the vessels of different kind, and the nature and extent of the business in which they are engaged.

SEC. 2. The *Secretary of State* shall cause to be printed blank tables, conveniently arranged, for the return of the facts aforesaid, and shall furnish them copies of the same, on or before the first day of October next.

SEC. 3. The *Secretary of State*, after he shall have received the returns aforesaid from the Assessors of the several towns, shall cause to be prepared, a true abstract of the same, and shall submit the same to the Legislature at the next session thereof.

SUMMARY

Of Returns of the Assessors of each town in this State, concerning certain Branches of Industry; and other Statistics so far as returned to the office of the Secretary of State.

The statements concerning all articles produced from land, and articles manufactured, together with their tonnage, &c, &c., have reference to one period of time, viz: from the first day of November, 1838, to the first day of February, 1839.

COUNTY OF HARTFORD.

BRISTOL.

40,000 yards of Satinet manufactured, value $17,500; capital, $56,000; by 38 workmen.
